

Transition Instructions for Wildblue Customers

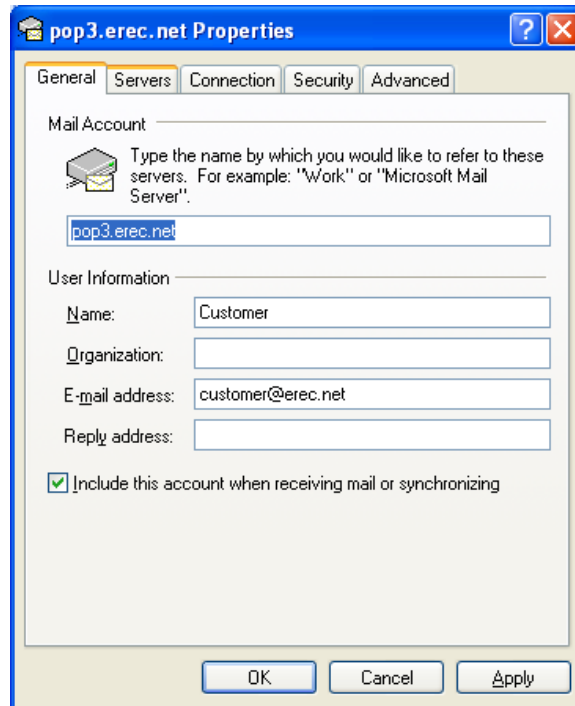

1. Open Outlook Express by double-clicking the **Outlook Express** icon on the desktop

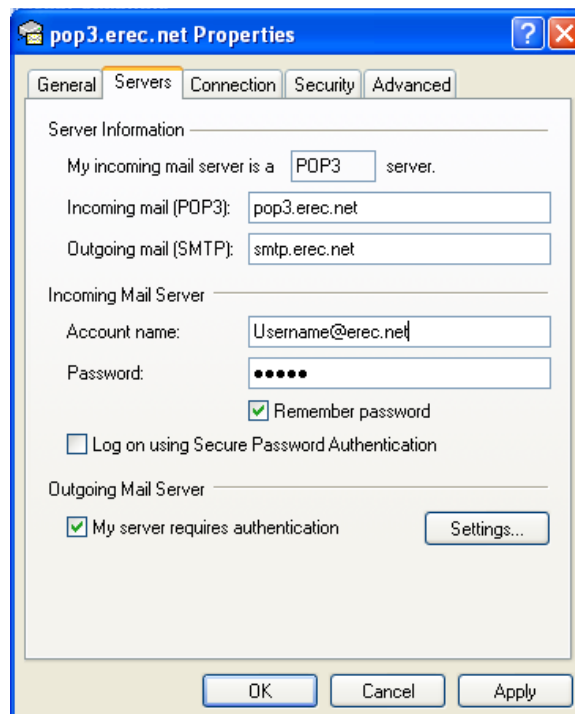

2. Click on **Tools**, then **Accounts**, to open the **Internet Accounts** window. In the **Internet Accounts** window, click on the **Mail** tab. The new account connection information displays in the **Account**, **Type**, and **Connection** columns. Click on the email domain address in the **Account** column to highlight it, then click on the **Properties** button to open the **pop3.erec.net Properties** window. (see graphic below)

3. On the **pop3.erec.net Properties** window click on the **Servers** tab display. (see graphic below)

4. On the **Servers** tab display in the **pop3.erec.net Properties** window, check the **My server requires authentication** checkbox, and then click on the **Settings** button to open the **Outgoing Mail Server** window. (see graphic below)

5. On the **Outgoing Mail Server** window, check on **Use same settings as my incoming mail server**. Then click ok to close the screen (see graphic below)

6. After the **pop3.erec.net Properties** screen appears, click **OK** to close the window. After the **Internet Accounts** window appears, click on the **OK** button to close the window
